

Online Working with Children - Part One

How to develop skills & confidence working with children of all ages. Children respond incredibly well to hypnosis and often benefit from learning techniques to help them overcome fears, control pain and enhance learning.

This course has been developed by Carole, who has worked & taught at Great Ormond Street hospital, using hypnosis for children suffering from pain and phobias.

What will I learn?

Equivalent to 20 hours CPD. Part One includes child development theories, attachment, stress, anxiety and phobias including school refusal, needle and dental phobia, selective mutism, depression, pain management, enuresis, stuttering and stammering, Dyslexia and ADHD, legal aspects of working with children.

Online certificate following completion of two case studies.
